CARE INSTRUCTIONS

Water : Water in the morning when the media is dry. Ensure there is moisture in the media and keep them from drying up.

Light : Ensure a good dose of indirect sunlight. Ideally the early morning light is advisable.

Temperature : Warm growing orchids with temperature between 25°C to 38°C suitable for growth. During fall, limited exposure to lower night time temperatures encourage growth of spikes. Higher temperature will encourage faster growth.

Humidity : Maintain humidity level of 60% - 80%. Regular watering in plants helps maintain the humidity and encourage growth. Good air circulation is a must.

Fertilizer : Weekly fertilizing required during active growth. In winter months, plants are fertilized twice a month.

Darjeeling Gardens Pvt. Ltd.

WHO ARE WE?

Darjeeling Gardens Private Limited was established in 2008 at Mirik. We began with breeding of Cymbidiums and now we specialize in growing different types of orchids from Dendrobium, Phalaenopsis, Cattleya, Vanda and other exotic species such as Rhynchostylis, Spathoglottis, Oncidium, Epidendrum, etc.

We have our own tissue culture lab where we propagate our own varieties. We are currently propagating Cymbidiums around 200 thousand plants/annum and Phalaenopsis round 50 thousand plants/annum. The same are then nurtured and hardened at our polyhouse.

Our polyhouses are set up across the region on different altitudes suitable for growing tropical and temperate orchids. Around 30000 sqm of polyhouse is set up for Orchids cultivation and 1 lakh sqm for cooperative farming.

WHAT WE DO

● **POLYHOUSE CONSTRUCTION :**

We construct high quality Poly houses with galvanized steel as well as low-cost bamboo poly houses with necessary technical parameters to optimize the cultivation practices for the target crop.

● **AGRONOMICS SUPPLY :**

We supply quality and uniform partners planting materials of popular varieties for our growers & channel for commercial market and Managerial operations of the Cymbidium Dendrobium Phalaenopsis and other tropical and temperate orchid projects.

● **TURNKEY PROJECTS :**

We have been executing a couple of turnkey projects especially govt. sponsored projects for the setup of small and mid-size Cymbidium and Phalaenopsis projects for growers in the region as part of an initiative for integrated development of horticulture sector of the region.

● **TISSUE CULTURE :**

We propagate our own varieties through tissue culture technology. We are currently propagating Cymbidiums around 200 thousand plants / annu, Phalaenopsis round 50 thousand plants / annum and others.
